

Magnetic pump CQB50-32-125F

2.2KW

URL:<https://www.sxplc.com/magnetic-pump-cqb50-32-125f-2-2kw>

Product data sheet

Product Name: CQB-FJ Magnetic Pump

Product category: Fluoroplastic magnetic pump

Flow range: 1-240T/H

Head range: 5-80m

Power range: 1.5kw-55kw

Operating temperature: -20 °C -150 °C

Applicable media: Any concentration of acid, alkali, salt, organic solvent, etc

Features: chlor alkali, electronics, acid-base, chemical industry, papermaking and metallurgy, etc

CQB 50- 32- 160 - F- J

CQB-----Magnetic drive pump

50-----Imported diameter 80mm

32-----Export diameter 65mm

160-----Nominal diameter of impeller

F----- The overcurrent component is made of fluoroplastic
