Product data sheet

Product Description

Product number:

AE 1076.500

material

Box: Steel plate

Door: Steel plate with foam polyurethane plastic sealing ring around it

surface

Box and door: Dipped primer, powder coated on the outside, textured

Installation plate: galvanized

colour

RAL 7035

Scope of Supply

Box with hinged doors, enclosed all around

The cover plate is located at the bottom of the box body

Installation board

Lock: 3mm double teeth

Protection level NEMA

NEMA 4

Protection level IP, in accordance with EN 60 529 standard

IP 66

IK encoding

IK08

size

Width: 600 mm

Height: 760 mm

Depth: 210 mm

Door material thickness

2 mm

Thickness of box material

1.38 mm

Installation plate material thickness

3 mm

Installation plate size (width x height)

549 mm x 730 mm

Number of gates

one

The door hinge is movable

yes

Number of locks

two

lock

Lock specifications: flange

Number of locks: 2

Lock cylinder: 3mm double tooth

Sealing cover plate

Size: 5

Quantity: 1

Basic materials

steel plate

Packaging unit

1 piece

Weight/Packaging

32.1 kg

Tax rate number

ninety-four million thirty-two thousand and eighty

Custom Tariff Number China (deviation to global nr)

Differing customs tariff number for China: 85380000

EAN

four trillion and twenty-eight billion one hundred and seventy-seven million two hundred and fifty-two thousand three hundred and fifty-six
