Product data sheet

Gate Valve & Body Fill Lubricant w/ MoS2

Formulated using food grade polyester base fluids and contains molybdenum disulfide (MoS2) and hydrogen sulfide (H₂S) inhibitors. Ideal for applications requiring maximum hydrocarbon resistance. EZY-TURN® #4 is pumpable to temperatures as low as -40°F (-40°C) when used with a high-pressure lubricator, it retains its consistency at 500°F (260°C) within a valve where oxygen contact is avoided.

Specifications

- Base Materials
Inorganic / Polyester

- Service Rating
>-40° F (-40° C) to >400° F (204° C) It can retain its consistency at 500°F (260°C) within a valve where oxygen contact is excluded.
