

Hydraulic Filter Element CU630A10N

URL:<https://www.sxplc.com/hydraulic-filter-element-cu630a10n>

Product data sheet

Material Glass fibre

Cartridge type Folding cartridge

Purpose Oil removal

Scope of application Filter

Applicable objects Oil

Type of Filter High efficiency

Brand name Other

Working Temperature -120(°C)

Working Maximum Differential Pressure 21(MPa)

Filtration precision 10 20 30

Inlet and outlet calibre Standard (mm)

Performance High temperature resistance

Raw water pressure Standard (KG/cm²)

Filtration area Standard

Model CU630A10N
