Product data sheet

MANUAL TYPE "C" TONG 35,000 ft-lbs TORQUE Spare part NO.14

TYPE C MANUAL TONG 35,000 FT/LB

The RHM Type "C" Tong covers drill pipe or casing sizes from 2 3/8" through 10 3/4" OD and is mostly used on smaller rigs. The new rugged latch design makes the "C" Tong stronger than other models and also can be ordered with an optional 30° lip, where space is a problem. The tong is made from alloy steel, heat treated, load tested, and magnetic particle inspected. All specifications are verified.
