

Input/output module FDCIO223

URL:<https://www.sxplc.com/input-output-module-fdcio223>

Product data sheet

2 monitored in-/outputs selectable as detector line (collective Siemens/Cerberus PRO, Synova 600 or conventional Synova 300), as contact in-put, control output or as control output with acknowledgement

LED display of input and output status, fault, test, etc.

Control output for equipment 24 VDC, max. 2 A

Two-wire installation for all types of cable

Pluggable connection terminals

Power supply 24 VDC external (detection lines galvanically isolated)

Microprocessor-controlled signal evaluation

Communication via FDnet/C-

NET (individual addressing)

Applicable in dry, dusty and humid areas

Different mounting possibilities
