Product data sheet

Classification output

Number of output channels 8

Output range parameter settings

Terminal geometry terminal

Input Range (Detailed) Digital Output - Parameter Selection (Channel Specific)

Power range (detailed) DC4~20mA/0~20mA (load resistance: below 1M Ω)

I/O occupancy score fixed: 64 points, variable: 16 points/XGK

Accuracy below $\pm 0.2\%$ (ambient temperature 25 ° C), below $\pm 0.3\%$ (operating temperature range)

Internal current consumption 190 (DC 5V, PLC power supply)
