

NGT and NGTC series fast fuses NGT C00-800/80

URL:<https://www.sxplc.com/ngt-and-ngtc-series-fast-fuses-ngt-c00-800-80>

Product data sheet

NGT and NGTC series fast fuses

Performance meets: IEC60269;GB13539.1;GB/T13539.4

Rated voltage: 380V-1000V

Rated current: 10A-630A

Breaking capacity; 100KA

Protection category: aR

Installation method: NGT bolt connection; NGTC plug-in type

Features: High breaking capacity, good current limiting characteristics, stable characteristics, low I_2t value and power consumption, can be externally connected to fuse indicator signalers or microswitches.

Suitable for: protection of variable frequency speed regulation, reactive power compensation, excitation power supply, semiconductor devices, and thyristor rectifier devices.
