10310-3-1cc

Product data sheet

Dimensions: 90 x 60 x 25 mm

Weight: 0.15 kg

Introduction:

10310/3/1CC is an earth leakage detector that is part of the Honeywell Safety Manager System (SMS). The SMS is a modular automation system that is used to monitor and control safety-critical equipment in a variety of industries, including oil and gas, power generation, and chemical processing. The 10310/3/1CC is a key component of the SMS, as it provides continuous monitoring of earth leakage current.

Features:

1. Continuous monitoring of earth leakage current
2. Alarms on earth leakage currents

3. Protects electrical equipment from damage
4. Protects personnel from electrical shock
5. Accurate and reliable
6. Easy to install and maintain
