Product data sheet

| |
|-------------------------------------|
| Regulator Unit Combination |
| Air Filter + Regulator + Lubricator |
| Connection Dia. |
| NPT1 |

| |
|--------------------------|
| Filter, Filtration Level |
| 5?m |
| Operating Environment |
| Air powered tools |

| |
|--|
| |
|--|

| |
|------------------------------|
| |
| Compressed Air Quality |
| |
| General Dry Air |
| |
| Max. Operating Pressure(MPa) |
| |
| 1 |
| |

| |
|------------------------------|
| |
| Case Material |
| |
| [Plastic] Polycarbonate Case |
| |
| Case Guard |
| |
| No |
| |

| |
|-------------------|
| |
| Exhaust Structure |
| |
| Relief type |
| |
| Flow Direction |
| |
| |

[Standard Flow (Left to Right)] Flow Direction

Drain Cock

[Auto/Manual] N.O. (Normally Open) at non-pressurized with drain emissions

Pressure Gauge

[With Standard Pressure Gauge] Round-shaped pressure gauge (with limit indicator)

Size of Body

60

Check Valve

None

Pressure Switch

None

Residual Pressure Relief 3-Port Connection Valve

None

Set Pressure

0.05 to 0.85 MPa

Drain Outlet

With drain cock

Lubricator Oil Discharge Outlet

Lubricator with drain cock

Pressure Unit

psi, °F

T shape spacer

No attachment

Made to order specifications

None
