**Product data sheet**

|  |   |
|--|---|
| <b>Size</b>  | 20  |
| <b>Cushioning angle</b>                                    | 72 deg                                    |
| <b>Setting range of swivel angle for each end position</b> | +10/-190 deg                              |
| <b>Swivel angle</b>  | 180 deg                                   |
| <b>Cushioning</b>  | Internal hydraulic cushioning normal      |
| <b>Mounting position</b>                                   | optional                                  |
| <b>Design</b>  | Rack and pinion                           |
| <b>Position detection</b>                                  | Via proximity switch                      |
| <b>Symbol</b>  | 00991265                                  |
| <b>Operating pressure</b>                                  | 0.2 MPa ... 1 MPa                         |
| <b>Operating pressure</b>                                  | 2 bar ... 10 bar                          |
| <b>Mode of operation</b>                                   | Double-acting                             |
| <b>Operating medium</b>                                    | Compressed air to ISO 8573-1:2010 [7:4:4] |
