

**HC9206, 6 ft., Heavy-duty Rubber High Pressure Hydraulic Hose, .25 in. Internal Diameter**

URL:<https://www.sxplc.com/hc9206-6-ft-heavy-duty-rubber-high-pressure-hydraulic-hose-25-in-internal-diameter>

**Product data sheet**

Maximum Operating Pressure (psi)	10,000
Internal Diameter (in)	0.25
End One Coupler	3/8" NPTF
End Two Coupler	CH604
Oil Capacity (in <sup>3</sup> )	3.54
Hose Oil Capacity (in <sup>3</sup> )	When using long hose lengths, it is sometimes necessary to fill the pump reservoir after filling the hoses. To determine the hose oil capacity, use the following for .25" internal diameter hoses: Capacity (in3) = .5892 x Length (ft)
Length (ft)	6
Weight (lb)	3
