

VALVE SCG356B002VMS

URL:<https://www.sxplc.com/valve-scg356b002vms>

Product data sheet

Attributes

Numerical values

Supply Voltage 24 VDC

Number of ports 3

Connection size 1/8in

Connection 1/8 in G female thread

Operation Direct

Preset valve position NC

Suitable for applications with air, inert gas, oil, water

Type 3/2

Hole Diameter 1.6mm

Body Material Brass

Series 356

Max. working pressure 10 bar

Operating temperature range -10 → +100 °C

Minimum working temperature -10°C

Thread standard or connection type G

Maximum working temperature +100°C

Connection gender female

Maximum opening time 10ms

Maximum closing time 10ms
